Subject: City Council Update

There is one action item for the consideration of the Trustees of the Yukon Municipal Authority. You are being asked to consider an expenditure of funds in the amount of \$1,170,800 for the maintenance and upgrade of the Waste Water Treatment as called for in our contract with Viola Water. The funding for this project was contained and approved in the 2012 Bond Issue. The amount budgeted was \$1,000,000. However, during the permitting process certain standards and rules had changed causing us to add an alternate piece to the project. We are proposing to spend \$1,000,000 from the Bond Issue and \$170,800 From the Capital Improvement Fund. This item is being considered by both the YMA and the City Council because the bonds were issued by the YMA and then approved by the City Council.

The first action item for Council's consideration is the matter described above. The second action item is your consideration and approval of an agreement with Southwestern Bell Telephone Company d/b/a AT&T Oklahoma (AT&T U-verse). The term of the agreement is five years and pays the City 5% of revenues. The agreement should have been renewed last July but slipped through the system. AT&T has continued to remit even though we didn't have a signed agreement. We will renew this agreement again in July of 2018.

The third action item is to authorize Robbie to advertise and receive bids for the 2012 CDBG Small Cities Set Aside Year 2012 Roadway Replacement Project Contract. I'm sure you remember that north of Main St. and West of Piedmont Rd. is the only area in town that qualifies for CDBG funding. We anticipate continuing with the upgrades to Cedar that we have been working on for several years.
